"So many reasons to party...but only one place to shop!"

Since 1969, serving all your party and event rental needs.

OPERATING INSTRUCTIONS CHAFERES AND URNS USING STERNO TYPE HEAT

- 1) Do not use anything but STERNO TYPE FUEL in the burner.
- 2) NEVER light the burner unit before putting water in the water pan, urn or kettle body. Low flame is sufficient to maintain proper heat.
- 3) Do not put the unit on a hot stove or an open flame.
- 4) Make sure fuel holder is NOT sitting directly on table.
- 5) Stainless steel food pans can be used for cooking. They can also be placed in the oven to keep food hot.
- 6) Chafing dish water pans should be filled with hot water. Check water pans when in use to insure sufficient water is contained at all times. DO NOT USE WITHOUT WATER.
- 7) Pry the lid off sterno and set sterno into container or on rack. Light sterno and use lid to cover sterno opening about ½ open. One can of sterno should last 60 – 90 minutes (less if outside and windy).
